

Meeting Minutes – 10/19/06

- Successfully converted code from .net to pdf using the print to pdf functionality
- Code conversion
 - Cpan
 - A2ps
- Markup word docs after code conversion – Jeff’s application
- Labrador creates pdf and then creates tabs for all those

Things to do:

- See if we can convert multiple code files to pdf to be opened in multiple tabs
- Convert all code to one pdf – look at perl modules out there
- Meet with other grades and find out how they grade etc.
- Talk to Kurt and Rob about automatic grading ideas
- Talk to TAs about survey questions
- Sit with Kurt to talk about his ideas and software for grading
- Sit with Yannis, Bruce M. and Dr. P – Labrador in action

Next meeting:

- VS.net paper prototypes for everything
- No detailed menus needed
