

Meeting minutes – 9/14/06

- Dr. P's talking with Pr. Johnson about setting up grading station in an office somewhere in UC.
- Use of Duplex web space on WebCT. We should all have designer access
- Inner workings for Labrador

- First prototype idea

- Things to include in our prototype
 - Syntax highlighting for code
 - Real time stylus
 - Automating running, compiling code etc (something to investigate) – maybe we can embed VS as easily as excel or word
- Other random things we talked about
 - Labrador → code → MOS → URL with match percentage etc (Dr. P showed how it works)
- Things received from Dr. P
 - Workshop 19 CDs
 - Resource Kit
- To do:
 - Try Dr. Char's code
 - Think of a catchy title that hints the use of Tablets. Current title suggested – GraderAid
