All CS and SE seniors are required to complete a three term software engineering project, in which teams of four to seven students are required to specify, design, implement, and test a substantial software project. This year there were 10 projects of which four were selected to compete in the Seventh Annual Outstanding Senior Project Competition. The four final teams win prizes ($1,000 for first, $500 for second, and $250 for 3rd and 4th) and the top two teams receive recognition on the department senior design plaque.

Sponsors

This year’s awards are made possible through donations from Northrop Grumman and Integrated Network Consulting, Inc. The winners are selected by a panel of external judges from local industry.

Judges

Michael Ciliberti -- President of Integrated Network Consulting, Inc., Adjunct Professor of Computer Science at Drexel, Drexel Class of ’93 (B.S. In Computer Science)

Brian Mitchell -- Enterprise Architect at CIGNA Systems, Adjunct Associate Professor of Computer Science at Drexel, Drexel Class of ’90 (B.S.), ’97 (M.S.), and ’02 (Ph.D.)

Doug Wright -- Fixed Income/Commodities Technology at Susquehanna International Group (SIG), Drexel Class of ’88 (B.S.)

Vera Zaychik Moffitt -- Lead Research Engineer, Lockheed Martin ATL, Drexel Class of ’99 (B.S) and ’01 (M.S.)
