

TERMINALS 1α, 2α, ..., 24α
 Program input pulse terminals for programs 1-24 respectively.

TERMINALS 1α, 2α, ..., 24α
 Program output pulse terminals associated respectively with α, β, γ, δ, ε on the 24 multiplier accumulator receive switches.

TERMINALS Dα-De
 Program output pulse terminals associated respectively with α, β, γ, δ, ε on the 24 multiplicand accumulator receive switches.

TERMINALS Rα-Rε
 Program output pulse terminals associated respectively with α, β, γ, δ, ε on the 24 multiplier accumulator receive switches.
